

STAR TREK

U.S.S. ENTERPRISE NCC-1701 REFIT
1:537 SCALE • PLASTIC ASSEMBLY GLUE-TOGETHER MODEL KIT

ASSEMBLY INSTRUCTIONS

GENERAL ASSEMBLY: This highly detailed kit features precision-tooled parts for ease of assembly, but care and patience must be exercised to achieve optimal results. It is recommended that the builder examine the instructions carefully and do a **dry test fit of parts before applying cement.** You will find this very helpful, as it will allow you to gain a clear understanding of how the parts fit together in order to best plan painting and final assembly.

SUB-ASSEMBLIES: Note that this kit is intended to be built in sub-assemblies. This makes building the kit far more manageable. It is very important to note that you will also find it extremely advantageous to **apply paint and decals to sub-assemblies**

before completing final assembly. Please see the other side of this instruction sheet for details on complex paint and decal placement.

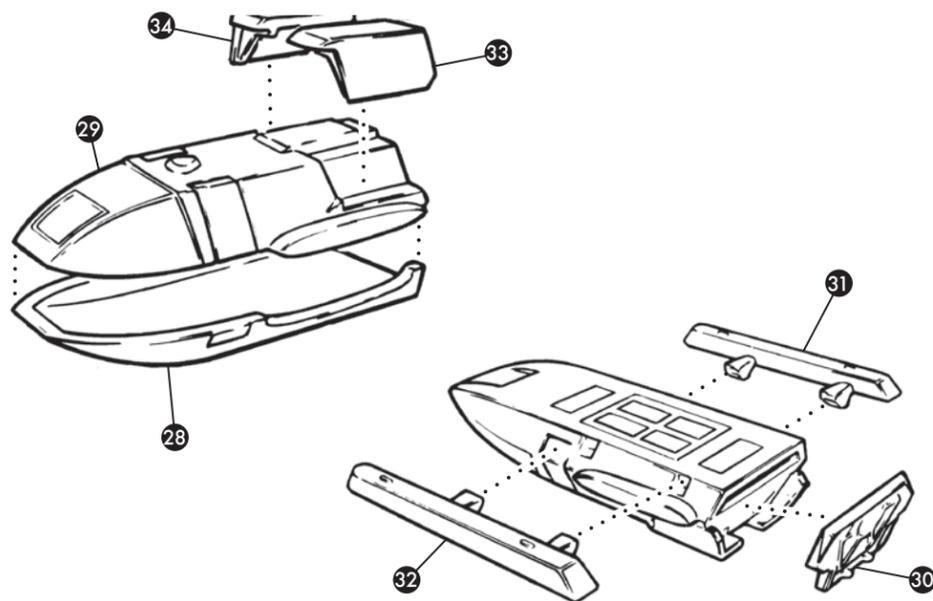

DECALS & PAINT: This kit includes detailed water slide decals. The decals do not require setting solution but they are compatible with it. Paint is not required to produce satisfactory results. However, some modelers prefer to add additional painted detail to their kits. See the diagrams on this sheet for instructions regarding decal placement and optional paint specs. For best results apply dull coat for final finish.

Special thanks to E. James Small for developing the decals included in this kit. For excellence in model building, visit his web site at smallartworks.ca

KEY TO NUMBERING SYSTEM

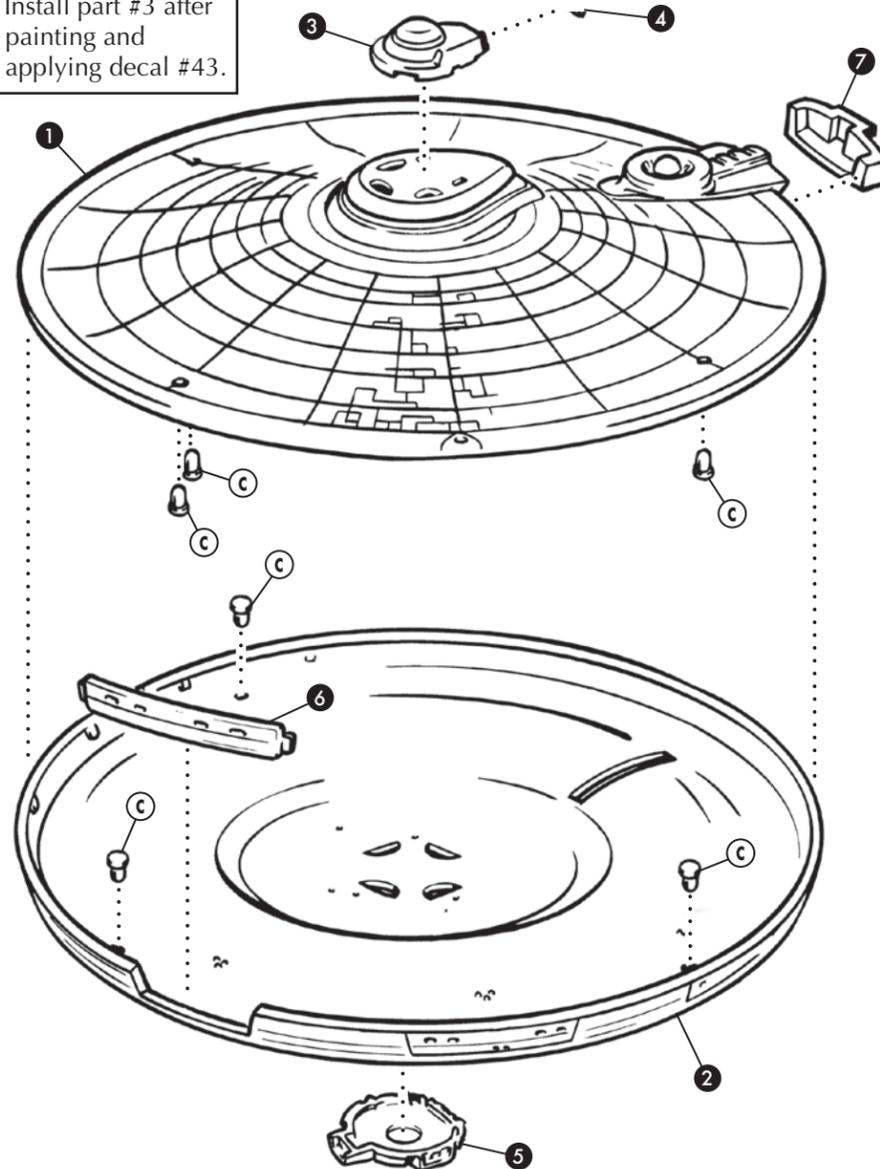

1 Part NUMBER C Clear Part 1 Step number

1 SHUTTLES

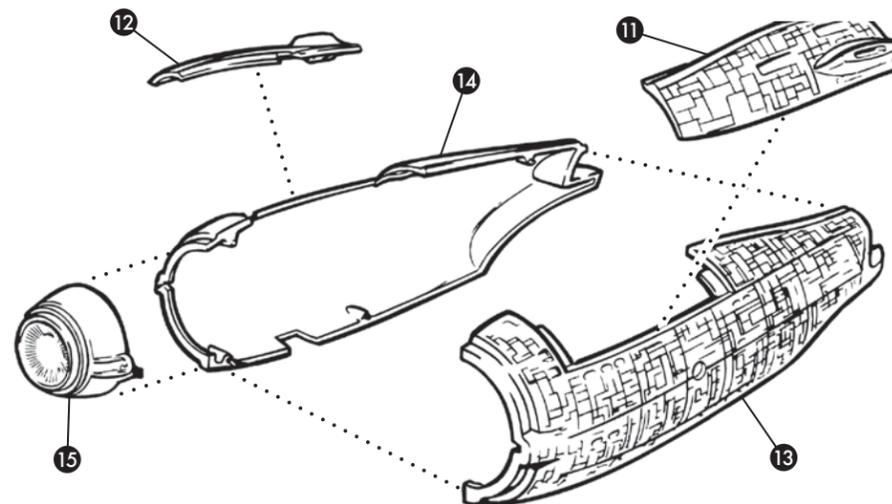

2 SAUCER

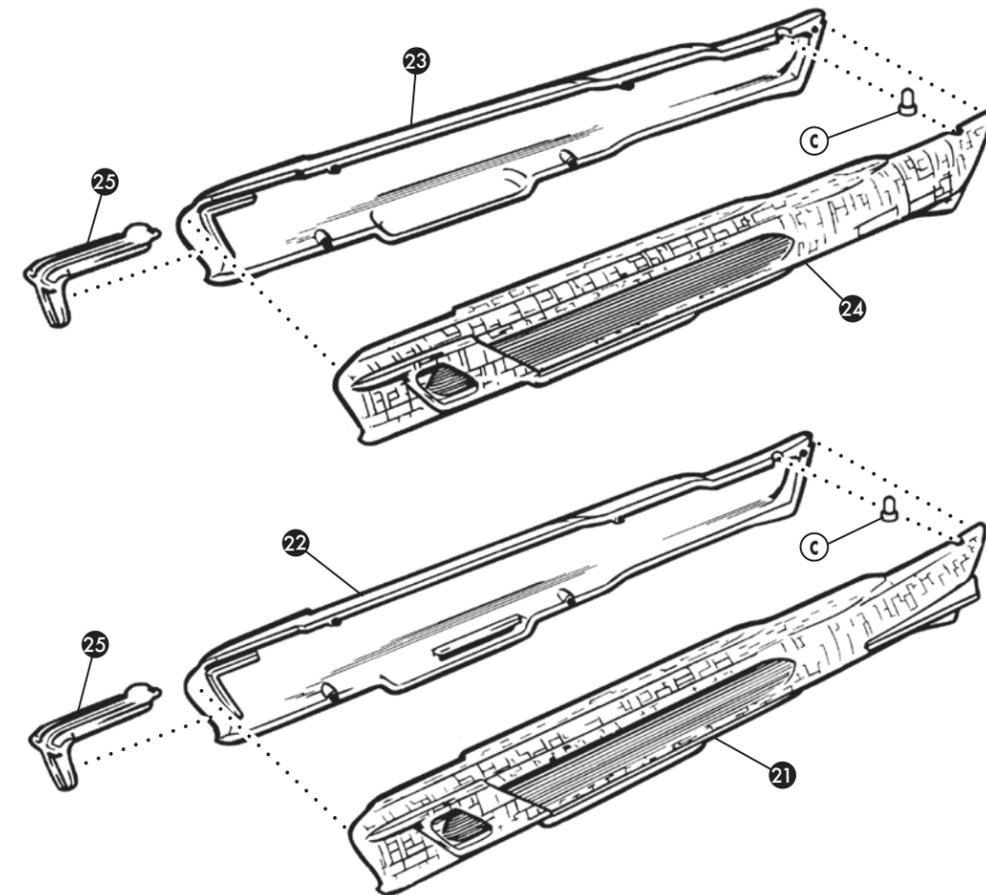

Install part #3 after painting and applying decal #43.

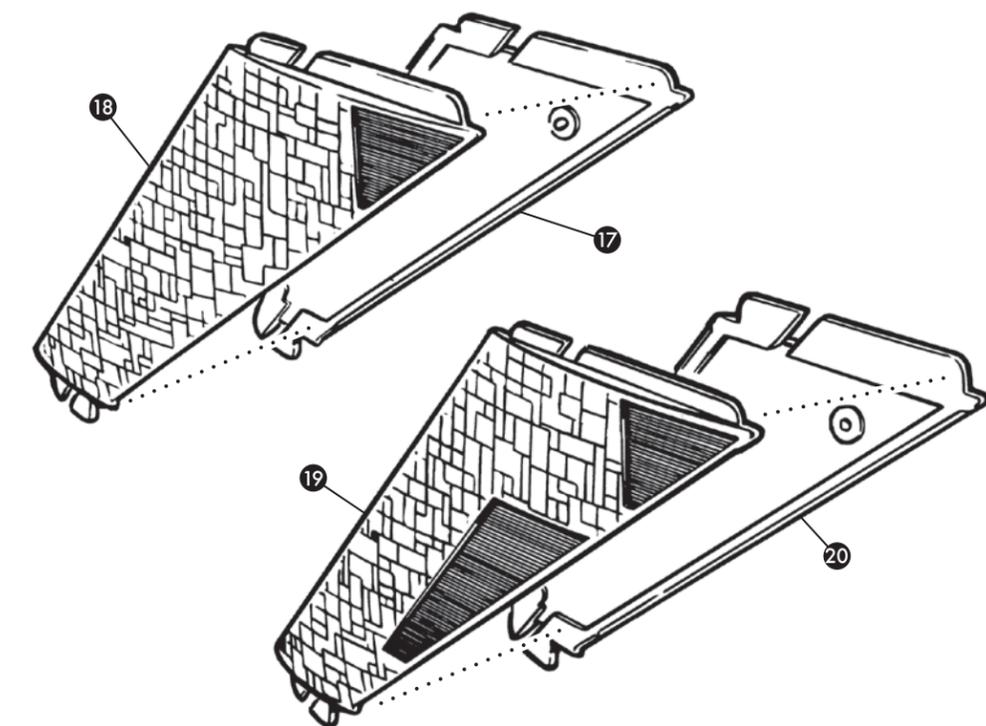

3 SECONDARY HULL

KEY TO SYMBOLS

4 Decal number A Paint color Paint area Shown upside down Opposite

- | | | |
|---------------|--------------|---------------|
| A Pearl White | D Flat Black | G Clear Green |
| B Light Blue | E Copper | H Clear Red |
| C Silver | F Yellow | |

Refer to box photos for additional paint options.

- To create the *U.S.S. Enterprise NCC-1701-A*:
- Replace decals #10 & 11 with decal #55
 - Add decal #52 to the end of decal #2
 - Add decal #53 to the end of decal #3
 - Add decal #54 to the end of decal #4

Note: some decals may need to be cut or positioned differently from the diagrams shown to accommodate the additional decals.
